

BIRTHDAY TREATS

Many students wish to share a treat with their classmates on their birthday. All birthday treats need to be approved by the classroom teacher due to the number of children with food allergies. Such a treat is a personal choice and is not an obligation. Should your child wish to bring an edible treat to school, it can be dropped off in the office before the class goes to lunch so that it can be shared at lunchtime. Be sure to involve the school nurse/assistants for student treat concerns. Treats should be simple (cookie, brownie, pencil, and eraser). **NO** McDonald's or ice cream treats should be brought in.

We are all working together to keep your children safe, healthy and ready to learn. There are children with **life threatening food allergies** and other children with health concerns that cannot always eat every treat. Along these lines, it has become procedure at Peebles that any edible treats sent in must have 48 hour pre-approval. Without prior approval, treats will **NOT** be given out. Mrs. Bjalobok and Mrs. Karki/Mrs. Nard will be consulted as needed. While we encourage non-edible treats, we do understand that exceptions can be made. We ask that you complete a form listing all ingredients found in your treat and send it to school no less than 48 hours before the treat will be sent in. Thank you for your cooperation in keeping all the children at Peebles safe. Copies of this form will be kept in the main office.

Student Name _____ Grade _____

Date Submitted _____ Date Treat to be sent in _____

Telephone _____

Please list ingredients, fats and carbohydrate counts or **attach ingredient list from package**
