

Name _____ Study Guide for Chapter 3

Test Date _____

Some suggestions for helping your child to study:

- The first night, just read through the study guide with your child so that they know what is on the test, and so that you know how much they need to study for it.
- Try to study for a few minutes each night leading up to the test, instead of studying for a large block of time the night before.
- A few days before the test, ask your child the information as questions. Highlight any information they don't know readily, and focus on that for the next few nights.

When you are reviewing for the test, please refer to the following lessons and pages in the Social Studies textbook.

- Lesson 1: Our Location- pages 82-87
- Use Latitude and Longitude- pages 88-89
- Lesson 3: Our Country's Regions- pages 102-105

Please review the following vocabulary words and concepts while studying for the test.

- Map
- Globe
- Geographic tools
- Continents
- Hemisphere (Be able to label the locations of the hemispheres and identify the hemispheres where North America is located.)
- Equator
- Border
- Latitude (Be able to distinguish between Latitude and Longitude on a map.)
- Longitude
- Prime meridian
- Preserve
- Compass Rose (Be able to label all of the directions on a compass rose.)
- Cardinal Directions
- Intermediate Directions
- The five regions of the United States (Be able to identify and locate the regions.)
