Once your login is processed, ESS displays the main screen, with the left panel displaying the list of applications for which you have permission to access.

**Employee Self Service (ESS)**

Employee Self Service (ESS) is the Munis Self Service application created specifically for current employees and job applicants. ESS accesses information from, and stores information in, the Munis HR/Payroll programs. When you update information in MSS, the updates also occur in the applicable Munis programs.

For employees, ESS provides access to personal information, pay and tax information, benefits, as well as training, certification, and performance information. For applicants, ESS provides information on current job opportunities, manages an applicant’s information, and provides automatic distribution of future employment information.

**Note:** All functionality may not be available during the initial Go Live, but will be available at a future date.

Employees must have a valid login to access the ESS application; registered applicants receive a personal identification number (PIN) for accessing their profile and prospective employment information.
ESS User Interface

The ESS user interface is designed to make employee and applicant information accessible in a user-friendly format. Each page of ESS provides the basic information for a selected option, with access to additional detail or change pages.
